National Osteoporosis Foundation
Mission and Vision

The National Osteoporosis Foundation (NOF) is the leading consumer and community-focused health organization dedicated to the prevention of osteoporosis and broken bones, the promotion of strong bones for life and the reduction of human suffering through programs of public and clinician awareness, education, advocacy and research.

Established in 1984, NOF is the nation’s leading voluntary health organization solely dedicated to osteoporosis and bone health. For more than 25 years, we have made significant strides in combating osteoporosis, but with 44 million Americans at-risk of the disease; we are still a long way from declaring victory over osteoporosis. With the continued support of individuals, corporations and organizations, we will continue advocating for the medical research needed to put an end to this silent killer; working to better educate and train healthcare providers to develop a standard of care for osteoporosis and ensure the best possible care and support for those living with it; and educating the public to help people of all ages prevent fractures and build healthy bones that will last a lifetime.
Message from the Chairman and President

2010 marked a year of renewed commitment and focus for the National Osteoporosis Foundation (NOF) as the organization worked to take action against osteoporosis and put an end to the devastating disease that affects 44 million Americans. Historically NOF has served as the nation’s leading health organization dedicated solely to osteoporosis and bone health. This past year, focused on maintaining its position as the leading consumer and community-focused health organization dedicated to preventing osteoporosis by delivering information and resources to educate the public and healthcare professionals on the risk factors, diagnosis and proper treatment for osteoporosis and advocating for expanded medical research to uncover better treatments and ultimately a cure for osteoporosis.

NOF’s mission is to change the course of this disease and break the historical silence associated with it by promoting lifelong bone health to improve the lives of those affected by osteoporosis and to prevent the disease for generations to come through programs of awareness, public and health professional education, advocacy and research. We are at a critical juncture in the fight against osteoporosis. Researchers have developed effective treatments for those with the disease and through NOF’s education and awareness efforts, people of all ages are learning about the steps they can take to lead a bone healthy lifestyle by eating right and exercising to help prevent the disease. As a result, osteoporosis has never been more beatable and treatable than it is today.

As we celebrate the accomplishments made over the past year, we also know there is much more work to be done. We look forward to continuing and enhancing NOF’s efforts to eliminate this major public health threat and truly protect future generations from osteoporosis. NOF would like to thank the Board of Trustees, staff, members, partners, donors and volunteers whose support for the organization have made this progress possible.

Sincerely,

The Honorable Daniel A. Mica
Chairman

Robert R. Recker, M.D.
President
Every 20 seconds, another American breaks a bone as a result of osteoporosis. That means in one year alone, two million Americans will suffer a hip, spine, wrist or other painful broken bone due to osteoporosis. The statistics are staggering, yet osteoporosis remains a disease that is often overlooked and poorly managed. That’s why it is essential to take action against osteoporosis now.

The National Osteoporosis Foundation is committed to helping people with osteoporosis turn their lives around and to protecting future generations from this debilitating disease. With the support of our donors, sponsors and supporters, I am confident that NOF is well positioned for the future as the leading consumer and community-focused health organization dedicated to preventing osteoporosis and broken bones, promoting strong bones for life and reducing human suffering through programs of public and clinician awareness, education, advocacy and research.

Every day NOF is working to raise awareness for osteoporosis and bone health by educating women and men of all ages and backgrounds on their risk factors and the steps they can take to prevent this disease by exercising and eating right. Our goal is to reduce the impact of osteoporosis by helping people of all ages maintain active, healthy and independent lives.

For our patients, we continue producing and updating our educational resources with important information to help them maintain healthy bones and prevent fractures. This information comes in a wide variety of forms including print materials, handouts, frequently asked questions, as well as our many online and electronic resources.

Through our Strong Voices for Strong Bones program, NOF brings together patients and healthcare professionals from around the country to meet with Members of Congress on Capitol Hill to raise awareness of the physical and economic impact that osteoporosis and poor bone health have on the nation. Our advocates share their stories and ask Congress to protect patient access to osteoporosis testing, create a National Bone Health Program and increase research funding.

Our goal is that the next generation of American women will be armed with the knowledge needed to keep their bones healthy and strong for a lifetime. Our hope is to raise awareness among the male population and educate them that osteoporosis is also common among men. We are working to reach pre- and post-menopausal women and spread the message that osteoporosis is a disease that is treatable. Through our education and awareness programs we are proving osteoporosis can be prevented, detected and treated. Together we can break the cycle of this hereditary disease and protect future generations.

On behalf of the NOF Board of Trustees and staff, we thank you for your commitment to fighting osteoporosis.

Sincerely,

Amy Porter
Executive Director and CEO
PHILANTHROPY

All we need is you. Since 1984, NOF has relied on the support of individuals, organizations, foundations and corporations to sustain and enhance our programs of awareness, education, advocacy and research. Together, we’ve made great strides in understanding this “silent thief,” but we are still a long way from declaring victory over osteoporosis. With 44 million Americans affected by this debilitating condition, we’ve only just begun to raise the funds and build the awareness needed to better treat and ultimately prevent osteoporosis.

With your support, we are working to spread osteoporosis prevention messages, improve patient care, strengthen our network of support groups and better educate and train healthcare professionals to protect the most vulnerable – those who have suffered a fracture – and to prevent osteoporosis for generations to come.

New this year, NOF is introducing giving levels to better reflect our efforts to encourage the public to build, maintain and protect their bones through all stages of life in order to continue living life on their own terms. The new giving recognition structure includes a cumulative giving society with three levels to recognize our donors who support NOF’s efforts at the highest level throughout their lifetimes. Through their sustained giving, these donors achieve and help others achieve what we all strive for: a lifetime of empowerment, independence and strength.
NOF recognizes the following individuals for their generous lifetime support of the organization:

**The Lifetime of Empowerment Society** recognizes the highest level of giving by individuals and families who have provided $1 million or more in contributions, grants, or deferred giving arrangements. Through the extraordinary vision, passionate involvement and personal example of these individuals, the knowledge and understanding of diagnosis, prevention and treatment of osteoporosis have been changed for the better, forever. These visionaries have provided, to each individual in society, the gift of empowerment to live a long, healthy and full life on his or her own terms.

*Toni Stabile*

**The Lifetime of Independence Society** recognizes individuals and families for their generous commitments of $500,000 or more over time through contributions, grants or deferred giving arrangements. Through their lifetime dedication and support, these individuals have helped others build, maintain and protect their health for a lifetime of independence.

**The Lifetime of Strength Society** recognizes individuals for their generous commitments of $100,000 or more over time. These individuals have helped encourage others to maintain a healthy regimen of nutrition, exercise and medical treatment, when needed, through all stages of life in order to achieve a lifetime of strength.

*Estate of Charlotte Jones-Kopence*

*Mrs. Ethel LeFrak*

*Mr. Morton B. Tannebaum*

**The Legacy of Strength Society** honors those who have directed their support to help others build, maintain and protect their bone health through a planned gift to the National Osteoporosis Foundation.

*Walter A. Boynton*

*Meta Osborn*

*Sarah Breeholz*

*Howard R. Pearson*

*Margaret Elkins Carl*

*Dorothy E. Pinkey*

*Wilda Edmondson*

*Angela M. Salatti*

*Mary C. Everts*

*Alfred Silverton*

*Charlotte Jones-Kopence*

*George Benett Smith*

*Mark C. Leachman*

*Henrietta Simon*

*Helen G. Miller*

*Helen C. Yankun*

*Dorothea Money*

*Betty Kronitz*

**The Paul G. Rogers Champion Circle** recognizes individuals and families who, like NOF’s founding chairman, the Honorable Paul G. Rogers, are advocates for a healthy America. The giving circle recognizes those who share Mr. Rogers’ tradition of action and advocacy to promote bone health and osteoporosis prevention through annual gifts totaling $1,000 or more. Gifts may be designated to
specific program areas of donor interest, or given in support of NOF’s central mission and the Honorable Paul G. Rogers’ vision – the prevention of osteoporosis and broken bones, the promotion of strong bones for life and the reduction of human suffering.

Charter Members

NOF thanks those who committed a contribution of $5,000 or more between November 2006 and December 2007 to support the formation of the Paul G. Rogers Champion Circle.

Healthy Bones for Life – Annual Contributions Society for 2010

Bone health, the basis for a lifetime of health, is achieved by building, maintaining and protecting the skeleton throughout the lifespan. We build bone in our youth by getting adequate calcium, vitamin D and exercise, maintain our bones through exercise and healthy diet in our middle years and protect our bones in later years through fall prevention, vitamin D, calcium and medicines, when appropriate. NOF thanks all of our contributors for their generous gifts over the past year, as you have helped sustain and enhance our core programs and moved us closer to helping all Americans achieve healthy bones for life.

With your support, we are working to change the legacy of osteoporosis, so it is no longer viewed as a disease passed down from generation to generation, and to make aging the time of greatest strength for all Americans. Your contributions are recognized by our three new annual giving levels below: Paul G. Rogers Protectors of Bone, Paul G. Rogers Maintainers of Bone and Builders of Bone.

All individuals listed below who have made annual gifts to NOF of $1,000 or more are also recognized as members of the 2010 Paul G. Rogers Champion Circle for their commitment to carrying on Paul’s legacy to improve our nation’s health.
Section 2: Philanthropy

Individuals

Corporate, Organizational and Foundation Members are key partners in furthering NOF’s education, research and advocacy work that benefits all generations of people and helps ensure their healthy bones for life. 2010 contributions from our Corporate, Organizational and Foundation Members are recognized by our three new annual giving levels below: Protectors of Bone, Maintainers of Bone and Builders of Bone.

**Protectors of Bone**

**$100,000 or more**
- Amgen, Inc.
- Eli Lilly and Company
- Novartis Pharmaceuticals Corporation

**$50,000 to $99,999**
- Apothecom Axis Healthcare Communications, LLC
- Pfizer, Inc.

**$25,000 to $49,999**
- Bayer Healthcare
- DIME
- General Mills, Inc.
- Orthovita
Maintainers of Bone

$10,000 to $24,999
- Bulgari Corporation of America
- Genentech, a Member of The Roche Group
- Hologic Inc.
- Lane Labs USA Inc.
- National Association of Chain Drug Stores Foundation
- The George M. Neall & Clara B. Neall Charitable Foundation
- Warner Chilcott

$5,000 to $9,999
- American Association of Clinical Endocrinologists
- American College of Obstetricians & Gynecologists
- American College of Rheumatology
- AmerisourceBergen Corporation
- Baker Street Foundation
- Bradford Renaissance Portraits
- Dance Times Square
- Dorothy D. Smith Charitable Foundation
- Eileen Fisher, Inc. - Retail Division
- The Endocrine Society
- Health Monitor Network
- Merck Employee Giving Campaign
- National Committee for Quality Assurance

$1,000 to $4,999
- American Society for Bone and Mineral Research
- Amgen Pac-Match Program

American Orthopaedic Association
- Biotechnology Industry Organization
- BrightKey, Inc.
- Capitol Partners, Inc.
- The Carlisle Collection
- The Denison Family Foundation
- Embery Outterson & Fuges, P.C.
- The Louis Feinberg Foundation
- GE Healthcare Lunar
- GLOW Beauty, Health & Wellness Magazine
- Haines & Company, Inc.
- Hogan Lovells
- Judith Ripka/The Helping Hand
- The James S. Kemper Foundation
- The Richard E. & Marianne B. Kipper Foundation
- Macy’s, Inc.
- Morgan Stanley
- Pennsylvania State University Dairy Science Club
- Pharmavite
- Public Interest Data, Inc.
- Scenterprises Ltd
- SunTrust Foundation
- The Triangle Club of Hawaii
- United States Pharmacopeial Convention (USP)

Builders of Bone

$500 to $999
- AAOS Women’s Health Issues Advisory Board
- Adrienne Landau Designs, Inc.
- American Bone Health
- The Baton Rouge Clinic Osteoporosis Center
