# A Communicator’s Tip Sheet for COVID-19 Vaccination

## Three Communication Considerations

### 1. WHAT
- Define communication goals

### 2. WHO
- Identify needs and perspectives of intended audience

### 3. HOW
- Create and disseminate tailored messages

## Do’s

- Tailor message to the information needs and values of the intended audience.
- Appeal to positive emotions (hope, caring for others).
- Make vaccination the easy choice.
- Use appealing formats: simple graphics, videos, personal narratives.
- Use accessible language and ensure culturally sensitive translation into other languages.
- Frame vaccination as a social norm.
- Support people in making informed decisions about vaccination.
- Emphasize unity and message consistency across the political spectrum.
- Adapt to diverse platforms by partnering with traditional and social media outlets.
- Monitor misinformation and respond when appropriate.

## Don’ts

- Use a “one size fits all” approach.
- Incite negative emotions, such as fear and shame.
- Use judgmental language that may alienate some people.
- Use directive language to suggest vaccination is a requirement or mandate.
- Overwhelm with complicated statistics and lengthy scientific explanations.
- Set unrealistic expectations about vaccine availability.
- Exaggerate the vaccine’s ability to instantly end the pandemic.
- Dismiss widely shared concerns about side effects or adverse outcomes.
- Repeat the same message in the same way, inducing message fatigue.
- Politicize COVID-19 vaccination.
